

Sousa Middle School

Ward Seven

350 Ely Place SE
Washington, DC 20019

6th through 8th grade
SY13-14 – 295 students

Environmental Coordinator:
Lydia Edwards-White

Principal:
Clarence Humes

Existing Environmental Literacy

Sousa partners with Kid Power to engage students in nutrition education. They have a vegetable garden on-site, an afterschool gardening club, as well as nutrition education lessons with Kid Power during the school day.

Sousa is also a RiverSmart School- partnering with the District Department of the Environment and the Anacostia Watershed Society to reduce stormwater runoff.

Plans to Grow Environmental Efforts On-Site

This year Sousa plans to expand their environmental literacy offerings in the following ways:

- Field Trip to Clagget Farm
- Deeper Connection to Anacostia River through canoe trips and field trips to Trash Traps
- Incorporating a Healthy Eating and Active Living Fair into 7th grade curriculum
